Bethany retirement living

# Rehabilitaion Suites

## CARING FOR PATIENTS WHO NEED REHABILITATION FOLLOWING A SURGERY OR INJURY

No one plans to get injured or need assistance, but it is a welcome relief to know that if you need us, the region's premier Bethany Rehabilitaion Suites is here for you. Your physician may recommend Bethany Rehabilitation Suites to help your recovery process progress as safely and quickly as possible.

Bethany Retirement Living is the area leader in care for those well enough to leave the hospital after an injury, illness or surgery but not ready to resume the daily activities at home without assistance. The Bethany Rehabilitaion Suites team is dedicated to helping you heal, restore your strength and re-establish your independence. They will also help you learn what you need to know about your continued health upon discharge.

Most Bethany Rehabilitation Suites patients require about two weeks of assistance before returning home, though your length of stay will be determined by your progress toward your goals. Transitional Care is a Skilled Care service.

## OUR BETHANY REHABILITATION SUITES INCLUDE:

- Medical providers
- State-of-the-art therapy
- Occupational therapy
- Physical therapy
- Speech therapy
- Diet and nutritional counseling
- Pharmacy services
- Lab and radiology services

## PERSONALIZED DAILY PROGRAMMING...

A Plan of Care is formulated for each patient, keeping in mind the injury or illness being treated, individual goals set by the patient and therapists, lifestyle preferences, and other potential treatment limitations.

## HOW TO APPLY...

You are encouraged to notify your physician and case manager at the hospital as soon as possible in your hospitalization to tell them of your preference to participate in Bethany's Transitional Care program. They will then forward a profile of your case to our admissions office.
